CULINARY SKILLS FOR **CHILDREN**

AJINOMOTO (Malaysia) collaborated with FuziMagic Goodwill Society to conduct a living skills development module for 20 students from four orphanages: Ti Ratana Welfare Society, Rumah Kebajikan and Bimbingan At Taqwa, Pertubuhan Pengurusan Rumah Safiyah and Praise Emmanuel Children's Home.

Equipping the children with culinary skills would benefit them in the future. The 12-month module is seeing results with the commitment from the orphanages.

Other than food preparation using Ajinomoto products, participants were also being guided on safety such as the proper use of utensils and working in a hygienic

environment.

During the third intensive culinary class recently, a competition between the homes was conducted and added excitement to the session. Members from Junior Chamber International KL were invited as special guests to learn about food preparation together with the children.
